Subject: NASRPC Communication

Importance: High

Dear Sports Coalition members,

It is with regret that we are writing to inform you that at a National Executive meeting of the National Association of Sporting Rifle & Pistol Clubs on Saturday the 24th of October, a decision was made to leave the Sports Coalition.

We have reluctantly come to this decision for a number of reasons including the following:

- The lack of objectivity and transparency of the selection process for representation on the FCP.
- The ratification of the Sports Coalition representatives for the FCP without the approval of all coalition members.
- The failure to notify the NASRPC of the agenda item for the meeting on Monday the 5th of October; that was the selection of the Sports coalition representatives for the FCP.
- Our disappointment at the lack of our direct representation on the Firearms Consultative Panel through the Sports coalition.
- Lack of direct communication and consultation on the selection process for the FCP sports coalition representatives.
- Communication from the Sports coalition legal representative threatening to summons a member of the NASRPC committee and the Minister for Justice to court.

We recognise the invaluable contributions the Sports Coalition has played in bringing Shooting Sports to where we are today, but as we move to the next phase of this process, we believe that our decision is in the best interests of our affiliated members and clubs.

Regards,

Will Danaher

Secretary

National Association of Sporting Rifle & Pistol Clubs
